

AMENDMENTS TO THE CLAIMS

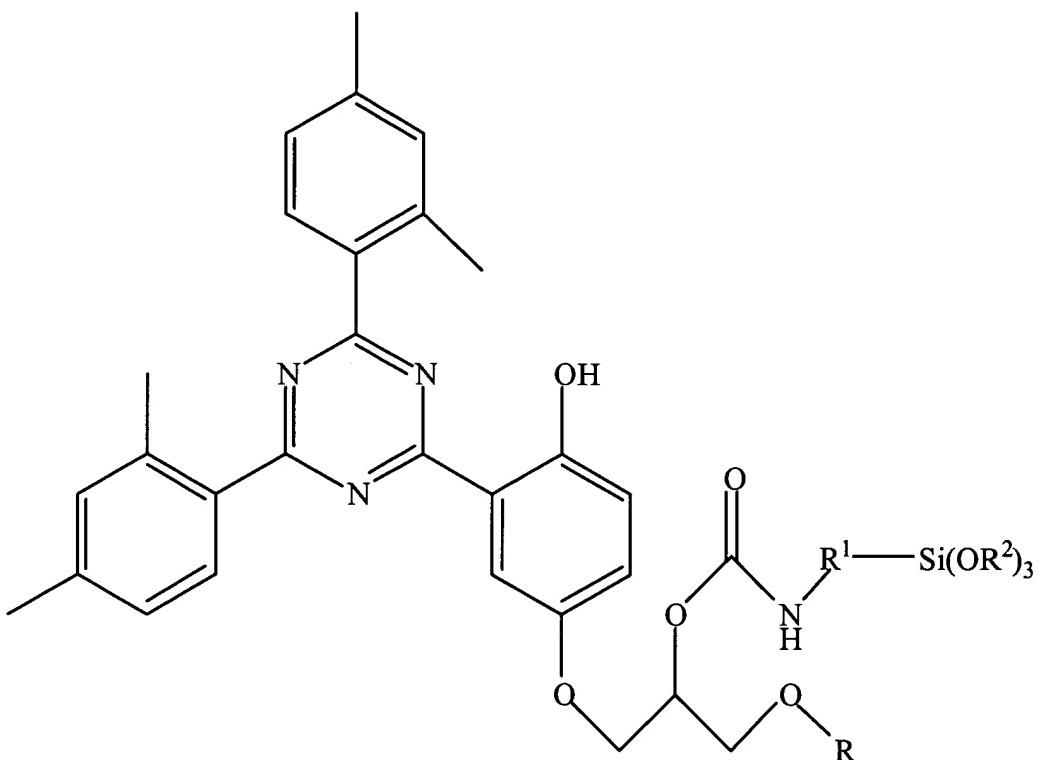

The following listing of claims will replace all prior versions and listings of claims in the application.

LISTING OF CLAIMS

What is claimed is:

1. (currently amended) A triazine UV absorber comprising a silane group; wherein the silane group is linked to the triazine UV absorber by a urethane group.

2. (original) A compound having a structure

wherein R is H or an alkyl group having 1 to 12 carbon atoms, R^1 is an alkylene of 1 to 8 carbon atoms and R^2 is an alkyl group having 1 to 6 carbon atoms.

3. (original) The reaction product of an isocyanate-functional silane compound with an active hydrogen-functional triazine UV absorber compound.
4. (original) The reaction product of an active hydrogen-functional triazine UV absorber compound and an active hydrogen-functional silane compound with a diisocyanate.
5. (original) The reaction product of claim 4, wherein the active hydrogen-functional silane compound has a hydroxyl group.
6. (original) The reaction product of claim 4, wherein the active hydrogen-functional UV absorber compound has a hydroxyl group.
7. (original) A coating composition containing a compound according to claim 1.
8. (original) A coating composition containing a UV absorber according to claim 2.
9. (original) A coating composition containing a UV absorber according to claim 3.

10. (original) A coating composition containing a compound according to claim 4.
11. (original) A coating composition according to claim 7, wherein the coating composition is a clearcoat coating composition.
12. (original) A coated substrate, comprising an outermost layer that is a clearcoat layer obtained from a coating composition according to claim 7.
13. (original) A coated substrate, comprising an outermost layer that is a clearcoat layer obtained from a coating composition according to claim 8.
14. (original) A coated substrate, comprising an outermost layer that is a clearcoat layer obtained from a coating composition according to claim 9.
15. (original) A coated substrate, comprising an outermost layer that is a clearcoat layer obtained from a coating composition according to claim 10.
